

# Paintless Dent Repair

**\$99**

**for dents this size and smaller**

Paintless Dent Repair (PDR) works on virtually all body panels on a vehicle, with the following exceptions:

- 1) PDR will not be 100% effective if there is cracked, fractured, or missing paint at the core of the damage or dent.
- 2) PDR will not be 100% effective if the damage is within 1" to 2" of the edge of a hood, door, quarter panel, fender, trunk, or roof. These areas contain "double metal," which limits air space and tool accessibility to completely remove the damage.
- 3) PDR will not work on rocker panels, pillar panels, plastic or metal bumpers.

**Sommer's Advanced Autobody  
now offers Paintless Dent Repair  
starting as low as \$99.**

Specially-designed tools are used by our craftsmen to remove dents and dings, as well as damage from hail without affecting the original factory finish of your vehicle. This process is faster than traditional re-painting and can be done at a fraction of the cost. **Stop by today for a free estimate!**
